REMARKS

The drawings have been amended to note that FIGS. 2 and 3 are prior art; to correct certain labels in FIGS. 1-3, 5-9 and 13-15 in accordance with the specification; to more clearly draw certain arrows in FIGS. 1, 4, 6, 10-11 and 13-15 in accordance with the specification; to include certain node indicators in FIGS. 13-15 in accordance with the specification; and to remove certain superfluous labels. No new matter is being added.

It is believed that all of the claims are patentable over the prior art. For better readability and the Examiner's convenience, the newly submitted claims differ from the translated counterpart claims which are being canceled. The newly submitted claims do not represent changes or amendments that narrow the claim scope for any reason related to the statutory requirements for patentability.

Accordingly, after the Examiner completes a thorough examination and finds the claims patentable, a Notice of Allowance is respectfully requested in due course. Should the Examiner determine any minor informalities that need to be addressed, he is encouraged to contact the undersigned attorney at the telephone number below.
